Ingredients

Egg White

Description

Pasteurized egg white is prepared from chicken eggs. Eggs are washed and sanitized prior to being broken. The egg white is separated from the yolk and pasteurized to maintain product quality and integrity.

Properties

Pasteurized egg white is a healthy alternative to breaking individual eggs.

Suggested Uses

Liquid egg white is one of the purest forms of protein in the world – pure protein, no fat, no cholesterol. This makes egg whites ideal for people on the go, sports enthusiasts, body builders and every nutritionally conscious person.

Great for egg white omelettes, scrambled eggs, and can be used in any cooking or baking recipe. Add them to virtually any drink without changing the flavour: orange juice, fruit and yogurt smoothies, etc. A great way to increase the protein in your diet.

Lot Coding

The product lot is generated based on the date the product is produced and expressed in the format: DDMMYY (e.g. 30090 for 30 September 2010).

Storage Conditions

Liquid: Product must be kept refrigerated at 1-4°C (33-40°F). Use product promptly after opening.

Certifications

Liquid Albumen is Kosher Dairy certified.
